CHAPTER II.

A faint tinge of pink was just beginning to adorn the Eastern sky, and the great cathedral clock had just tolled the hour of five, and Earlington was yet asleep, and no wonder, for it was Sunday morning and the people of this prosperous little mining town, who were never idle during the remaining six days of the week, gladly took their rest on the Sabbath.

Through the window the night operator, who was yet on duty, could be seen with his chair tilted back and his feet resting on the table, dozing peacefully, while on a pile of mail sacks near by the call boy snored loudly, much to the annoyance of the office cat, to which, sleep having been thus far denied, the only really enjoyable thing left to do was to take a much needed face washing. Outside all was quiet, except the never ceasing puff-puff of the electric power plant in the distance. The crew of switchmen who nanned the one yard engine had long since sought the shelter of the "shack," after having been advised by the yardmaster that there would be no more trains till 5:30. At the north end of a long siding stood a road engine, and the cloud of dense, black smoke that floated skyward from the smokestack indicated that she was being made ready to go out, and even then the engineer, with a torch in one hand and a long spotted oil can in the other, was attending to the matter of lubrication. At the other end of the long siding stood the yard engine, coupled to a caboose, which was to be put on the expected train relieving the one that came in. The engineer on the switch engine sat far back in his seat with his feet supported, at a much greater altitude than his head, by an armrest in the front end of the short little cab. The fireman occupied a like position on the opposite side of the cab. Both had quietly fallen to sleep almost in the midst of an animated discussion of the new Superintendent. Suddenly the engineer awoke with a start. He had heard something, and looking in the direction of the expected train, he saw, far up the hill, the blink of a headlight, which was hardly perceptible in the gray dawn. He yelled to the fireman to wake up and, getting no answer, gave that worthy a

decidedly rough shake, and while the fireman was indolently rubbing his eyes, the other turned his attention to the firebox to see if there was any fire in there. He found it nearly out, and reaching for the shovel, began to put in coal. While he was thus occupied something happened, or rather, something passed. A loud roar and a violent trembling of the earth was all they heard, and a thin cloud of smoke now mingling with an immense cloud of dust as far as they could see in both directions was all they saw, except that the engineer could plainly see that the blinking headlight which he had just seen coming from the South, was no longer to be seen.

The two men in the cab of the little yard engine gasped for breath, and with distended eyes looked at each other for a full minute before either could utter a word.

"Well, I'm d-d!" exclaimed the engineer.

"What was it?" gasped the fireman almost in a whisper.

"I've been here a long time," said the engineer, in a more composed tone, "and it's the first time I ever see anything go through here like that."

By this time the now thoroughly awakened operator was running around, trying to find out what train it was that had gone through without getting orders, but the only tangible information that he could obtain was from the engineer of the road engine, who told him that it was an engine with two or three box cars attached, "funnin' like h-l-a-beatin' tankbark," as that knight of the oilcan expressed it. This, however, did not tend in any way to relieve the tension on the nerves of the excited operator, who made haste to inform, by a series of nervous dots and dashes, the train despatcher of what had happened. The train despatcher immediately wired the roundhouse foreman to have the wrecker in readiness to be called out at any moment.

Soon the yard master and switchmen, as well as quite a crowd of citizens, who had been awakened by the noise of the runaway, began to gather and express opinions as to what the result would be, and what it might have been if the track had not been cleared through the Earlington yards.

NEW LINE OF CHURCH WORK

Miss Jessie Nisbet, of Madisonville, Will Probably Go to Dallas, Texas, as a Pastoral Helper.

Miss Jessie Nisbet, of Madisonville, who recently graduated from the A. M. Coronet Training School for Pastoral Helpers, of Cincinnati, Ohio, will probably go to Dallas, Texas, to assist in pastoral work, as it is expected she will be called to that place. Miss Nisbet, together with two other young ladies, was of the first class of only three students to graduate from the school mentioned.

A pastoral helper is defined as a woman who gives all her time to helping the pastor, and it is claimed that the right kind of a pastoral helper will in most cases be of more service to the church than an assistant pastor. Miss Nisbet is an educated, cultured young woman, well equipped to fulfill her high mission.

Will Address Sunday Schools.

Mr. T. C. Gebauer, field worker for the Kentucky Sunday School Association, will address the Sunday school workers and all who are interested in Sunday school work in our county at the following places on dates named:

Madisonville, Sunday, March 15th. Neph, Monday, March 16th. Mortons Gap, Wed. March 18. Earlington, Thurs. March 19th. Hanson, Friday, March 20th.

Every Sunday school worker in the districts represented by the above appointments is expected, if possible, to attend the meeting.

Mr. Gebauer is a Sunday school worker of experience and can and will be a great help to all those who attend. We most respectfully urge all workers and friends to be present at the meeting in their district. We sincerely hope that all will be sure to attend and induce as many of your friends and friends of the Sunday school to attend as possible.

THAT WHITE OWL.

Dick Salmon's Rare Bird Believed to Be Identified as Last.

The Halsey "white owl" item has traveled 'round the earth and finally landed in a country exchange in the following form:

An unusual incident is reported from Halsey, near Dawson Springs. A few days ago a boy captured a pure white owl in an old-fashioned quail pen. The bird has been taken to Dawson and put on exhibition.

Dawson people are inclined to believe that it is an albino, but from its description it is evidently a snowy owl.

The snowy owl is common enough in the arctic regions and sometimes in very cold winters it is seen in the northern part of the United States, but how a specimen ever straggled as far south as Kentucky is a mystery.

It is probably the first known instance of the kind on record.

Dick Salmon is the "boy" who "captured" this bird of the night, the "pure white owl."

He exhibited it first to a genial commercial traveler, who in turn told the story to the world. This is the first time the name of the discoverer of this "rara avis" has been published, although a number of his friends who knew have enjoyed the personal side of the incident. It is now thought from the peculiar markings on the breast of the bird that it is of English origin, possibly what was known long ago as the Meeker owl.

BOYS AND PUPS.

Sometimes the Likely One Turn Out Disappointingly.

Boys are a good deal like the pups that fellows sell on the street corners—they don't always turn out as represented. You buy a likely setter pup and raise a spotted coach dog from it, and the promising son of an honest butcher is just as like as not to turn out a poet or a professor. I want to say in passing that I have no real prejudice against poets, but I believe that if you're going to be a Milton there's nothing like being a mute, inglorious one, as some fellow who was a little sore on the poetry business once put it. Of course a packer who understands something about the versatility of cottonseed oil need never turn down orders for lard because the ruu of hogs is light, and a father who understands human nature can turn out an imitation parson from a boy whom the Lord intended to go on the board of trade. But on general principles it's best to give your cottonseed oil a Latin name and to market it on its merits and to let your boy follow his bent, even if it leads him into the wheat pit.

PETITION

For a New Road to be Run From Earlington to Richland Made to the County Judge.

A petition signed by W. D. Hobgood, J. D. Lynn, John W. Young, H. E. Eisen and W. C. McLeod has been presented to County Judge Givens to open a road from Earlington to Richland, running due west over the lands of Y. Y. Gordon, W. C. McLeod, Luther Hibbs and J. W. Young to a point on the Madisonville and Princeton road near Hyram Eisen's place in the town of Richland. This road will be of great convenience to the public in reaching coal mines, markets and the county seat, and is a direct route from Earlington to Richland.

RIOTOUS MINERS SHOT.

Several Men Killed and Wounded in Battle in West Virginia Over Injunction.

SEVENTY-THREE PRISONERS TAKEN.

Supported by Mine Workers the Rioters Were Destroying Property and Defying Authorities.

MAINTAINED CAMPS AND MARCHED ABOUT INTIMIDATING.

Charleston, W. Va., Feb. 25.—At Stanniford City, in Raleigh county, at dawn this morning a battle royal took place between the joint posse of United States Deputy Marshal Cunningham and Sheriff Cook on one side and rioting miners on the other, as a result of which three miners were killed, two others mortally wounded and a number of others on both sides hurt.

The trouble grew out of the attempt to arrest 34 miners for violation of the injunction issued by Federal Judge Keller last August. On last Saturday Deputy Marshal D. W. Cunningham went to Atkinsville, a mining town in Raleigh county, to arrest men charged with violating the injunction. He was surrounded by a large party of miners armed with Winchester rifles, who ordered him to leave the place, an order which he quickly obeyed. Sheriff Cook about the same time attempted to make some arrests under process issued by the State court, and was treated in a like manner.

Cunningham returned to this city and reported to the Marshal and District Attorney. He was instructed to return with men sufficient to serve the process given him, and to do it at all hazard. Before Cunningham returned to Atkinsville, however, Marshal John K. Thompson and S. C. Burdette, attorney for the United Mine Workers, went to the scene, spending most of Sunday and Monday there. They found everything quiet there, the rioters having withdrawn from the immediate neighborhood and crossed New River, going into camp, 300 strong, near the Big "Q" mine on the north side.

Thompson and Burdette came home Tuesday morning and Cunningham and a strong posse went from here to make the arrests. When Atkinsville was reached the Federal forces were joined by Sheriff Cook and his posse. The coal companies near by furnished some guards, and the deputy Marshal and Sheriff found themselves in command of about 100 well armed and determined men. The rioters had recrossed the river on Tuesday, and were parading up and down before the various coal works, from 150 to 200 men armed with rifles. They intimidated miners at work, drove away the guards at the mines and even went so far as to disarm a guard and force him to march at the head of their procession. Emboldened by their success, they attempted to burn down a bridge of the Chesapeake & Ohio railroad over Piney gulch, and threatened the destruction of other property. Last night they went into camp near Stanniford City.

This morning about daybreak the officers and their combined posse surprised the rioters in their camp and called on them to surrender. The reply was a shot. This was answered by a shot, and immediately a battle was raging. When it ceased three of the rioters lay dead and many others were found to be wounded, two of them fatally.

Seventy-three arrests were made, 10 falling to the share of Deputy Cunningham and 63 to that of Sheriff Cook. All the prisoners were taken to Beckley, the county seat of Raleigh, where the 10 United States prisoners were given a preliminary hearing by Commissioner Dunn and held for their appearance at court here. They will be brought here on an early morning train. The Federal authorities will try to get the State to give up the 63, so that they may be tried in the Federal Court, but it is doubtful whether it will be done.

The injunction which the men are charged with violating was issued at the suit of the C. & O. Coal Agency Company. It was on behalf of every coal mining company operating in the New River field. President Mitchell and Secretary Wilson and 150 miners were enjoined.

It applied generally to all their abettors and covered almost every foot of ground in the New River mining section. Although the mines have all been at work for several months, both on New River and on Kanawha, the strike, which began on June 7 last, has never been declared off and the New River field has been filled with a lot of agitators who have caused trouble from time to time during the entire winter.

The strikers have been staying in camps and in such houses as they were allowed to occupy here and there, living out of the commissary furnished by the national organization of the United Mine Workers, meeting and marching and intimidating such of those who were at work as they could influence and only awaiting the proper time to blow the slumbering spirit of the strike anew into flame.

The strikers have boasted that trouble would come again in the spring, and it is thought the present outbreak is the beginning of the new fight. A week ago last Friday the strikers marched about to the various mines, ordering workmen to come to a meeting on Sunday, and in one case for several hours they kept anyone from entering or leaving the mine of the Lanark Coal Co. This was the infringement of the injunction that caused the rules to be issued against the men whom Cunningham attempted to arrest on last Saturday.

Gen. J. W. St. Clair, attorney for the New River coal men, said tonight:

"The workings of the United Mine Workers in New River Valley have been productive of nothing but lawlessness, the destruction of life and property, since the beginning of the strike in June. This state of things has existed so long that the good people of that region have determined to support the officers of the State and National Government to whatever extreme it may be necessary to protect themselves against these marauders and to teach the United Mine Workers that they cannot instill into West Virginia miners lawless methods, and further that non-union men willing to work shall enjoy that privilege, be the cost what it may."

Director W. R. Merriau is threatening to resign from the Census Bureau because he was not appointed Secretary of Commerce.

HAPPENINGS IN KENTUCKY.

Judge J. L. Dorsey, of Henderson, has withdrawn from the race for Circuit Judge to succeed himself in the Henderson-Union-Webster district. Hon. Malcolm Yeaman, of Henderson, at the same time announces his candidacy. Judge J. W. Henson, of Webster county, is the other candidate.

Rev. E. D. Maddox, of Constitution, and Miss Donia Brown, of Hanson, were married at the home of the bride's parents. Rev. Maddox is a very prominent minister of that section and is highly respected by all.

The Imperial Tobacco Company of Kentucky, of Henderson, filed articles of incorporation with the Secretary of State, capital \$75,000. James McDonald, Richmond, Va.; Geo. E. Willis, Bristol, England; Chas. Samuel Clark, Liverpool, England; Wilford O. Reed, Richmond, Va., incorporators.

Theodore Slaton and Charley Sample, neighbors, and living in the Browder Chapel country, had a misunderstanding about a mule trade and as a result Slaton stabbed Sample. The wound is in the left side and while it is a very severe wound, yet the doctors believe the man will recover.

Styler Newman, one of the oldest and most widely known log men of this section, met death near the mouth of Pond river while floating a large raft to the mouth of Green river. The report says that Newman was standing near the edge of the raft, which struck other floating timber or some obstacle, which caused him to lose his balance and fall into the river. The supposition is that the body floated under the logs, as his two assistants were not able to again see him. The body has not as yet been recovered. He was about fifty years of age and unmarried.

P. A. Campbell and Miss Myrtle L. Clark, both of the Richland country and highly respected young people of this section, were married at the residence of the bride's parents.

Hayes' attorneys filed reasous and asked for a new trial of the famous Hayes-Haag damage suit at Henderson. They asked the court to set aside the verdict and grant new hearing on grounds that the court erred in giving instructions from 1 to 7.

There were only eight instructions, and the last was given the jury at the instance of Hayes' attorneys. The court overruled the motion and the case will be appealed.

Jailer Wallace has given Dr. Bullock, of Frankfort, a positive answer, asserting that even should Gov. Beckham and all other officials concerned consent, he would not permit the inoculation of the bodies of Earl Whitney and Claude O'Brien with disease germ, as proposed by Dr. Justin De Lisle, of New York. Jailer Wallace is the final officer in charge of the prisoners.

Senator J. C. Blackburn has sent the city of Paducah from Washington 175 handsome volumes for its public library, which will be open in a few months. They nearly all deal with civil government.

Mrs. Donnett, the American wife of an English officer, recently killed the largest tiger ever killed in India. It measured ten feet and eight inches in length.

Rev. N. F. Gabbet, of Howell, Ind., is visiting Rev. J. W. Lester this week; also preached at the General Baptist Church Sunday night to a fair congregation. He is an excellent preacher.

The St. Bernard Mining Company of this place donated a car load of coal to the poor people of Evansville, Ind., last Friday and the L. & N. furnished free transportation to destination for same.

Miss Susie Galbreath entertained at lunch last Wednesday evening and all participants report an enjoyable time. The party was composed of the following persons: Miss Katie Robinson, Calie Drake and Susie Galbreath; Messrs. Charlie Webb, Elliott Drake and Ernest Wyatt.

Willard Simms, singer and dancer and comedian, will this season be seen in the principal comedy role with that clever revue "Pickings From Puck," supported by an elegant company and with a part which fits well his capabilities. Mr. Simms should add another to his long list of successes. Temple Theatre March 10.

William Simms, who forced London theatre goers to capitulate when he was principal comedian with the Edna May Opera Company, playing "The Belle of New York" at the Shafersbury Theatre, will this season delight theatre goers on this side of the Atlantic. He has been engaged as principal comedian for Ollie Mack and Joseph Gaites' production "Pickings From Puck," a review of current events which promises to be one of the best productions of the year.

Tragedy Averted. "Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City Ohio. "Pneumonia had played and havoc with him and a terrible cough set in beside. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound, and well. Everybody ought to know. A Priater Greatly Surprised.

"I never was so much surprised in my life as I was with the results of using Chamberlain's Pain Balm," says Henry T. Crook, a physician of the Asheville (N. C.) Gazette. "I contracted a severe case of rheumatism early in the winter, and after trying several things without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so I bought one and before using it twice it cured my rheumatism. It had taken it right and I have not had a rheumatic pain since." For sale by St. Bernard Drug Store, Earlinton; B. F. Robinson, Mortons Gap; Geo. King, St. Charles.

Cowand and Maloney Go to Madisonville to See the Show, and Saw it.

Messrs. Cowand and Maloney, the two gentlemanly clerks who preside over the destinies of J. M. Victory's dry goods store, went to Madisonville Monday night to see Adelaide Thurston in "Cory Corner." They enjoyed themselves very much and had a high old time until the journey home began. The night was dark, the mud was deep, the harness broke and the horse went to sleep, but they managed finally to reach Earlinton after using a vast amount of twine strings and some Sunday school words.

Mrs. P. W. Boxley Entertains.

Mrs. P. W. Boxley entertained a number of her friends Tuesday night. The game was progressive flinch, and as usual at one of these entertainments, everyone enjoyed themselves. Refreshments were served at 11 o'clock, after which the merry diners went home with the consolation they had spent a delightful evening. The following guests were present: Misses Lizzie Huff, Bessie Hollingsworth, Mattie Yates, Charlie Davis, Susie Galbreath, Katie Robinson, and Messrs. Orlo Long, M. M. Melton, Maurice Lannan, James Anderson and J. E. Brown.

DEMURRER SUSTAINED

Case Against Reinecke Coal Co. Under Two-Weeks Pay Bill.

Before adjourning the Hopkins circuit court last week Judge Gordon announced his decision on the argument in the two-weeks pay-increment of the Reinecke Coal Co. The court sustained the demurrer and an order covering the decision was put to record. The court did not state upon what particular ground the demurrer was sustained. The argument of the defense was that the two-weeks pay law was class legislation, unconstitutional, and also that the bill was of no effect because defectively drawn. It is not known whether Commonwealth's Attorney Grayson will appeal from this decision.

The jury in the Haag-Hayes damage suit has returned a verdict which clears Hayes of all suspicion of burning Haag's hotel and justifies Haag in accusing him of the act.

When you wake up with a bad taste in your mouth you know that you need a dose of Chamberlain's Stomach & Liver Tablets. They will cleanse your system, improve your appetite and make you feel like a new man. They are easy to take, being sugar coated, and pleasant in effect.

With Brittle, Shapeless, Discolored Nails,

As Well as Roughness and Redness,

ONE NIGHT TREATMENT

Soak the hands on redting in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, the great skin cure and preserver of emollients. "When, during the night, old, loose skin grows, or bandages lightly in old, soft cotton or linen. For red, rough, dry, fissured, itching, feverish palms, with brittle, shapeless nails and painful finger ends, this treatment is simply wonderful, frequently curing in a single application. In no other way have Cuticura Soap and Ointment demonstrated their astonishing curative properties more effectively than in the treatment of the hands, especially when tortured with itching, burning and scaly eczema. Complete local and constitutional treatment for every humor of the skin, scalp and blood, with loss of hair, may now be had for one dollar. Bathe freely with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry without hard rubbing, and apply Cuticura Ointment freely, to all itching, irritation and inflammation, and soothe and heal, and lastly, take the Cuticura Resolvent Pills to cool and cleanse the blood. This treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humors, and leads to a speedy, permanent and economical way of restoring, dispelling humors from infancy to age, when all other remedies and the best physicians fail.

HURT IN THE MINES.

William Faulkner, an Old Miner, Seriously Injured by Slow Shot.

HE WENT BACK TOO SOON.

William Faulkner, an old colored miner, who has been a faithful employee of the St. Bernard company for twenty-six years, was seriously injured Tuesday afternoon in the Hecla mines. He is a pick miner and had put in his shot and touched it off. Then, retreating to a safe distance, he waited a short time for the shot to go off. He went back too soon and got the force of the explosion in his breast. The lung was perforated by its force and the old man is not expected to survive. Every possible attention has been given him but at his age the hurt is probably fatal.

More Rios.

Disturbances of strikers are not nearly so grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient for the disorders of the kidneys as Elmer's Electric Bitters. It's a wonderful tonic, and effective medicine for the greatest ailment around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuritis, and exerts a powerful germicidal action. Only 50c, and satisfaction guaranteed by St. Bernard Drug Store.

SECK AND DR. RENFROW.

Go Duck Hunting and Use Field Glasses, but get no Ducks.

Dr. Renfrow and Henry Seck, two mighty Nimrods, went duck hunting on Loch Mary one day this week. There were some ducks on the lake alright but they were not in range. After waiting around and talking about the ducks they had bagged heretofore when the sign was right, Seck pulled out a pair of field glasses and looked at the ducks through them for sometime, then he turned them up all at short range and handed them to Doc, who on looking through them saw the ducks at so short a range he dropped the glasses and made for his gun, which was some little distance away; when he returned the ducks were peacefully floating on the opposite side of the lake.

Having a Run on Chamberlain's Cough Remedy.

Between the hours eleven o'clock a. m. and closing time at night on Jan. 25, 1901, A. F. Clark, druggist, Glade, Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers. This Remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold, or attack of the grip, use Chamberlain's Cough Remedy; you are certain to be more than pleased with the quick cure which it affords."

MINES AND MINING NEWS

A prominent U. M. W. official says his organization spent over two hundred and sixty thousand dollars in the effort to force the free miners of Hopkins county to join the Union. Of the \$166,319 reported as received by Sec'y. Treas. Campbell up to Dec. 1, 1901, \$106,250 was sent by the National Board. In the report of the National Treasurer Wilson at Indianapolis in January last, he omitted to tell the convention how much money was spent for rifles and cartridges; for drill masters of the armed camps, established in Hopkins county. If the dupes who contributed this great sum of money, with which to oppress honest American workmen, because they refused to join the U. M. W. could only know how this money was spent they would certainly be astounded. It would be a record of extravagance, of drunkenness and of vice by officials and organizers unequalled, a record of lawlessness and crime only equaled during the anthracite strike. Courts of justice have sent members of this organization to the penitentiary for murder, for intimidation and for murderous assault. Many members are fugitives from justice. Seven members will be tried for the murder of Sheriff Coffey in a few days. So much this money accomplished. A very few dozen members of the order are still in Hopkins county, waiting for "aid." These joined the order for "aid," not from principle. This great sum of money so wickedly thrown away, would have bought 700 comfortable homes for miners. It would

have opened and equipped mines enough to have produced 2,000 tons of coal daily. No better illustration of the incompetency of the organization of U. M. W. to manage the coal business of the country could be given.

More trouble for the Federation of Labor people of Evansville. It seems that the management of the Evansville Furniture Company does not advocate the eight hour labor bill before Congress, and forsooth the walking delegate proposes to do things. The gas company still unable to supply the demand made on it for coal by Evansville people—a few more boycotts on this coal, with the free advertising given by U. M. W. in Evansville and the demand will require the product of another mine to supply Evansville alone.

Many labor unions in Virginia have boycotted the National Guard, union members declining to re-enlist on expiration of enlistment. No good law abiding citizens object to the National Guard. No good law abiding citizens object to courts enjoining lawlessness. The men or organizations that denounce either the militia or the courts are not worthy to be American citizens. They will violate law to aid their personal interest.

The St. Bernard Mining Company planted over sixty thousand walnuts in the past two months. During the past twelve years it has planted between three and four millions.

semblance to Lillian Russell, assists in the production to a great degree and gives a performance that is always consistent and pleasing. The chorus is one of the special features, rounding out the play with melody and graceful dancing, and it may be said that the "Ping Pong" dance is a distinct novelty and one in which the chorus shows to exceptional advantage. The musical numbers are breezy and cheery; in fact, all that could be desired of the musical comedy.

The plot of the play is above the average for this sort of a production. Sam Flinders, while at college at Harvard, falls in love with an actress, and decides to go to New York and go on the stage. His parents being opposed to it, disinherits him, but being a reckless sort of a chap with "I-dont-care-what-come-to-me" way about him, decides to shift for himself, and while in New York he met the actress he has fallen in love with at college, who turned out to be no other than the woman his parents had selected to become his wife, not knowing that she also had adopted the stage.

The play is full of life, with one humorous incident crowding so closely upon another that the audience has but little time to catch a breath between laughs. In the supporting company will be found Miss Hattie Lucier, Fred Louder, Gns Pirley, the whistling tramp and others.

LOCOMOTIVE BLASTS

EARLINGTON YARDS TO BE DOUBLED.
Plan to Enlarge Tracks to Twice Their Present Capacity—Yard Will Move North and West

Plans have been drawn to double the present capacity of the Earlinton yards of the L. & N. Railroad, and the final approval of the high officials of the system is confidently expected. The greatly increased freight business of the line and the local improvement caused by increase in business originating at the coal mines and coke ovens renders it imperative that the Earlinton yards be enlarged. The new arrangement of the yards contemplates their extension on the northwest side and the making up of trains at that end of the yard. This will relieve the congestion of traffic over the principal crossing of the city over Main street, where many of the trains are now made up, and will please the people of Earlinton immensely.

Will Occupy New Evansville Depot.

The Superintendent, Assistant Superintendent, General Freight Agent and other officials of the Louisville & Nashville Railroad located at Evansville, will move into their new offices in the beautiful new station in about ten days or two weeks. The city ticket office, with Leo Hurd in charge, will still remain at First and Main, to remind the public of the place where the L. & N. lived so many years.

GREAT RECORD OF TRAINS.

Out of 53 Trains on the Henderson Division in 24 Hours, 50 Made the Schedule.

The Henderson Division made a great record one day in February, on the 12th, when fifty-three trains of all classes were run over the division and all but three of the whole number made schedule time. Forty-one of these trains were freights. This is an unusual record. The three trains that did fail to make schedule time only lost a little time each and finished their runs just a little late. This day's record is believed to be a record breaker. The Transportation office at Louisville has been asked if any other division can show a better record, but the department is said to be silent yet—probably speechless. Sup't Jno. W. Logsdon doesn't believe this can be beaten.

NEW FREIGHT DEPOT.

Hopkinsville to Have New Brick Building On L. & N. to Cost Eighteen Thousand Dollars.

Among other extensive improvements that will be made along the line of the Henderson Division of the Louisville & Nashville Railroad during this year is a new freight depot and offices of the company to be erected at Hopkinsville. The building will be of brick and stone and will cost \$18,000. The freight traffic of the L. & N. has increased at that busy town that the new structure has become a necessity. It will be built on the site now occupied for this purpose.

Business on the Shawneetown branch of the L. & N. has been looking up for some time. The coal mines of Equality, Ill., are now in excellent shape and shipping a good output. Other freight business is good and passenger traffic was never better. Conductor White continues to run the latter branch of the business.

The new Evansville passenger station is to have three umbrella sheds for passenger trains and the most improved facilities for handling passengers and making up and transferring trains. The final work is now being pushed and the new station will be occupied in a short while.

An addition to the Madisonville freight depot, which includes a re-arrangement of the offices, was some time since authorized by the L. & N., and part of the material is on the ground. The plans authorize an addition to cost about \$3,200, which will put the freight department at that place in good shape to handle the increased business at Madisonville.

Work on the new depot at Slaughter'sville has begun. This building is one among a number of new depots that were authorized by the L. & N. last year. The materials were ordered and have just now been delivered. The company went into the open markets and purchased materials for the new stations at Sebes and Robards, authorized at the same time, which have just now been completed.

Probable changes in the route to avoid grades on the south end of the Henderson Division, it is said on good authority, will prevent contemplated improvements in building along that part of the line until the final decision is reached with reference to these changes, and the work of changing begun.

Mrs. J. B. Yount, of Nashville, Tenn., is visiting friends in Goodlettsville this week.

Miss Alice Frazier, of Howell, is visiting in Henderson this week.

Mrs. S. S. Shelton, of Earlinton, is spending the week in Henderson.

Mrs. W. A. Talley, of Earlinton, has gone to Nashville to visit friends.

Superintendent of Machinery Pulaski Leeds will visit Howell shops about the middle of the week.

Master Mechanic Thos. Walsh, of Howell Shops, was the happy recipient last week of a telegram from his son, F. O. Walsh, at Montgomery, Ala., announcing the arrival of a grandson, Thos. Walsh, Jr.

Three neat cottages are being erected on the St. Louis Division "Y" between Howell and Evansville to be used by the section foremen. Two have already been finished and the third is nearing completion.

Fireman B. F. Ezell has resigned his position on the Shawneetown Accommodation to try his luck as an agriculturalist near Shawneetown, Ill., where he has rented a farm for five years. His many L. & N. friends wish him unlimited success in that capacity.

Ten new 200-class consolidation engines are arriving at

Nashville, for use on the Henderson and St. Louis Division, to replace some of the smaller engines of the 600 and 800 class, which will be sent south.

Advices have been received that the L. & N. is negotiating for new machinery for Howell Shops, the object being to equip that shop so it will be one of the best in the country.

While it is very important that every human engine puffing up and down the grades of life should be supplied with "sand," it is more important that there should be no gravel in the sand.

At New York it is said that the Louisville and Nashville is likely to attract particular attention among railroad men during the next few months. It is said that a bond issue amounting to perhaps \$300,000 is in contemplation, and that it may be authorized before April.

It is believed at Nashville that the Louisville and Nashville will soon acquire an entrance into Atlanta over a new line that is being surveyed by the Seaboard Air Line from Marietta to Atlanta.

PROVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

THE NEW MUSICAL NOVELTY.
"PICKINGS FROM PUCK."

A Really Funny Play. Will Appear at the Temple Theatre Next Tuesday Night, March 10.

The play is up to date, bright, snappy, and the least of the good features is its originality, a review of the current events humorously and artistically treated, introducing special novelties, catchy songs graceful dancing and beautiful scenery. Willard Simms, who essays the star role, and who has just returned from his sojourn "across the pond," was the principal comedian with the Edna May Opera Company, playing the leading role in the "American Beauty." Miss Katharine Linyard, noted for the beauty of her voice and her re-

WHY?

The reason One Minute Cough Cure relieves a cough in one minute is because it goes straight to the source of the trouble, the inflamed membrane right where the cough troubles in the throat or deep-down in the lungs. It soothes the inflamed membrane, breaks up the phlegm, and loosens the cough. One Minute Cough Cure also cures whooping cough, croup, and all other coughs. It gives strength and elasticity to the delicate membrane which protects the throat and lungs. Opens the air passages and promotes the normal action of the lungs. Causes the blood to receive its normal supply of oxygen, thus making the lungs and the entire system healthy and vigorous. It is the only cough cure that cures the cause. Asthma, Bronchitis, La Grippe, Croup, Croup, and all other pulmonary complaints are cured as quickly as they are caused.

Why Women now Look Younger.

A question which might elicit considerable interesting discussion is: why are the typical modern women twenty and even thirty years younger in appearance, than were their grandmothers at the same age? One might reply, says Mr. Woodrow Wilson in the March Cosmopolitan, very pertinently that, in the first place, they have decided to live longer, to better enjoy life, it is largely a question of will. Having made this decision, they seek the means which shall enable them to retain their youthful appearance. They understand that beauty and ill health are not congenial companions; consequently, the women of today live much in the open air, loving the sun and the breeze far more than the easy chair and the open fire.

A Pa Gladden Prayer.

"Lord of all souls, we come before thee this night for aid. Thee we notice our brother waiting on the bank for the angels to beckon him across. Thou knowest that his hour air at hand, an' the clockwork o' his bein' air clean out o' repair. Lord, he air willin' an' air firm in believin' that thar air a foothold on the other side. Lord, send fer him! Lord, call his home 'bout any more delayin', whar he'll never be a pilgrim fur a furrier, but an inheritor o' thy grace an' thy love on speakable."

Caution

This is not a patent word—but when you think how liable you are not to purchase for 75c the only remedy that has had the largest sale of any medicine in the world since 1880, you will see the wisdom of Consumption and Throat and Lung troubles without losing the great popularity all the world has put in your hands. You will be thankful we called your attention to Boecher's German Syrup. There are so many cheap counterfeit remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe Croup, Bronchitis, Croup—and especially for Consumption, where there is difficult expectation and coughing during the nights and mornings, there is nothing like German Syrup. Sold by all druggists in the civilized world.

A Hurry-up Medicine

Every housekeeper recognizes the need of effective remedies in emergencies; when something must be done right away. Such a remedy is Perry Davis' Pain-Expeller for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Its mission of mercy began sixty years ago. It is used in all countries. There is not one Painkiller, Perry Davis'.

Are You Going West?

A Sever Cold for Three Months.

The following letter from A. J. Nussbaum, of Batesville, Ind., tells its own story. "I suffered for three months with a severe cold, a druggist prepared me some medicine, and a physician prescribed for me, yet I did not get better. I then tried Foley's Honey and Tar, and it cured me." Refuse substitutes. Sold by John A. Taylor.

"BEN HUR" COMING TO LOUISVILLE.

Southern Tour of the Famous Spectacle Limited to Four Cities.

Klaw and Erlanger's stupendous spectacle, "Ben Hur," which is touring the South for a limited engagement of five weeks' comes to Macaulay's Theatre, Louisville, direct from its present Mardi Gras triumph in New Orleans, for one week only, commencing Monday, March 9, with matinees Wednesday and Saturday. The coming of this great spectacle is an event of greatest importance, as everyone in this community has been wished to witness the stage presentations of General Wallace's famous novel. Special accommodations and reduced rates will be offered on all roads between here and Louisville during the engagement of "Ben Hur."

Although "Ben Hur" is already well known here, a word regarding its massiveness will be of interest. The production which comes to Louisville is the same original Klaw and Erlanger organization which was seen in Chicago and St. Louis last year with the same cast, scenery, equipment, horses, camels and ornate electrical effects. There are a few bands of music serving the dramatic purposes as a voluntary before divine service—and when the curtain rises, it will disclose the illimitable waste of desert; the tired camels; the three wise men gathered from Greece, from Egypt, from Hindustan to greet the appearance of the star, "focus of dazzling lustre." His star proclaims His birth. The play opens with His birth and closes with hosannas and rejoicings over the last miracle. It was to perform before an appointed end.

Following the prelude comes the brilliant colored picture of the house tops of Jerusalem, the terrace of the palace of Herod. Next is one of the most dramatic scenes of the dim interior of the Roman galley ship—the muscular, grim visaged slaves tagging in rhythmic motion at the oars. Then the wreck, with Ben Hur and his captain struggling in the waves. Then comes the most thrilling and realistic effect ever presented on the stage—the great chariot race. A rumble is heard in the background, the hurrying clatter of horses' hoofs is heard, the race is disclosed. Two Roman chariots, each drawn by four horses, form the centre of the marvelous picture. The animals with far stretched necks and dilated nostrils lie head, urged on by the driver, the charioteers—Ben Hur and his enemy, Messala. The wheels of the chariots rumble and away, now Ben Hur is ahead, now Messala, then Ben Hur and then the race is ended.

The last scene is one of fitting beauty and impressiveness, revealing the Mount of Olives, where a great multitude gather to greet the Nazarene and where the Savior performs the miracle of cleansing the temple. Christ's personality is never represented in the flesh, but his presence is indicated by a ray of marvellous brilliancy, which is reflected by a shaft of pure white light from the heavens over his head.

To present the marvellous spectacle, no less than 350 people are required. In the obituary race eight horses are used, while four more are kept in training for emergencies. The entire cast of seats opens Thursday morning, March 5, at nine o'clock. Manager Macaulay announces that all out-of-town orders, if accompanied by cash or money order, will be filled before the regular box office sale opens.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Dr. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 95 pounds. I was unable to do any work, and I was a great deal of trouble to my family until I used One Minute Cough Cure. It relieved me of my cough, and I was able to get on my feet. I am now in perfect health and strength."

UNION ROBBERS CAUGHT.

William Rudolph and Richard Collins Under Arrest in Connecticut.

RUDOLPH FIGHTS WITH HIS CAPTORS.

Over Eight Thousand Dollars Found in the Rooms and on the Prisoners at Hartford-Letter to Collins Paroled Detectives a Crew Which Results in Arrests.

Hartford, Conn., March 2.—William Rudolph, known as "the Missouri Kid," and George Collins have been arrested here by officers of a detective agency and the Hartford police. The men were wanted for a bank robbery at Union, Mo., committed December 27. About \$14,000 in money and \$100,000 in securities were stolen.

Rudolph and Collins have been here a few weeks, but were not located until yesterday, when Rudolph was seen on the street. The detective wanted to get the men together and would not risk putting one of them in the car until they were together. This afternoon Rudolph, Collins and two stepbrothers named Laplant, who reside here, were coming out of a house on Albany street, where they had two rooms. They were followed to a house on State street, and a force of Pinkerton men and local detectives was gathered there. Collins and the Laplants came out of the house together, and were arrested without any trouble.

Rudolph Shows Fight. "The Missouri Kid" remained in the house, and Detective Dougherty and Detective Farrell, of this city, went after him. They went into the room with revolvers drawn. Rudolph reached under his overcoat for a gun, a large one. Dougherty was in his before he could pull it. The men had a struggle while the Hartford detective tried to get the men away from Rudolph. Dougherty was bitten in the neck. Farrell finally got the gun away from Rudolph, when a man in the house told the men of Rudolph's assistance, thinking the detectives were trying to hold him up. The women of the house told the men of officers were, and then he helped them.

Money Found on the Prisoners. Rudolph had about \$2,300 on him. In the rooms occupied by the men were found three large revolvers, a bag of cartridges and skeleton keys, and a quantity of clothing. In all \$8,000 was found in the rooms and on the prisoners. About \$1,000 was in gold.

After committing the crime at Union, Mo., Young Rudolph and Collins went to Hot Springs, Ark. In a search of the Rudolph house a scrap of paper was found upon which was written "George Collins, Hartford, Conn." The Hartford police learned that Collins and formerly lived in the school at Meriden, Conn., and with the information thus secured they were traced to this place.

FIFTY-SEVENTH CONGRESS.

(Second Session.)

In the senate, on the fifth, a scheduled rider to the agricultural and post office appropriation bill was withdrawn and both bills passed. The house amended the following currency bill which was referred to the committee on currency, and a large number of amendments were passed. The house adopted the conference report on the army appropriation bill and the bill to the president. The bill to establish a new station in Washington was finally passed, the house abandoning its amendment to reduce the amount to be given to the Pennsylvania and Baltimore & Ohio railroads from \$100,000 each as fixed in the senate bill, to \$50,000 each as fixed by the house. The power currency bill was debated in a desultory way. The speaker appointed the following members to represent the house at the dedication of the Louisiana Purchase exposition: Messrs. Dawsey (rep. Minn.), Sherman (rep. N. Y.), Nichols (rep. Ind.), Barth (rep. Mo.), Vanvorhis (rep. O.), Parker (rep. N. J.), Overstreet (rep. Ind.), Martin (rep. Ill.), Smith (rep. Ia.), Miller (rep. Kans.), Burkett (rep. Neb.), Robertson (rep. La.), Bartlett (rep. Ga.), Shafron (rep. Ark.) and Hay (rep. Va.).

The senate, on the fifth, passed the sundry civil bill after a number of amendments had been added to it. The advisory bill and locality of the appointment of the president of senators and members on commissions were the subject of considerable discussion. During the discussion it was made clear that no action was intended on Mr. Lodge and Mr. Barry who have been selected as members of the Alaska boundary commission. Mr. Lodge (rep. Ind.) and Mr. Barry (rep. Mo.) was understood and Mr. Lodge followed when the case was called up. Mr. Lodge said that he was called up because if the case was called up they would have to fight when the vote was taken and he began to fight when the vote was taken. The matter was brought to a vote, the senate, on the fifth, passed the naval and military academy appropriation bill. The total carried by the bill is \$1,500,000. STRENUOUS DAY IN PARIS.

President Francis of the Louisiana Purchase Exposition at the French Capital.

A DAY WITH EVERY MOMENT TAKEN UP.

In the Evening He Was Received in Audience by President Loubet, and, Later, Attended a Dinner Given in His Honor by the Minister of Commerce.

Paris, March 3.—President Francis of the Louisiana Purchase Exposition Co. arrived here early Monday morning from London, and immediately set about meeting leading government officials with a view of stimulating and enlarging their participation in the exposition. The cordiality of the French attitude was evident from the moment of Mr. Francis' arrival, and throughout the morning he was the recipient of calls and invitations from representatives of official and commercial life. Owing to his expected departure for Madrid, Tuesday, Mr. Francis' programme was a busy one. It included an official breakfast, at noon, given by the minister of commerce, and a dinner at the mayor and other city authorities; at 4 p. m. he visited the minister of commerce, M. Trouillot; at 5 p. m. he was received in audience by President Loubet, at the Elysee palace; at 6 p. m. he visited the chamber of deputies and met the leading deputies; at 7 p. m. a grand dinner was given by the minister of commerce in Mr. Francis' honor, and at 9 p. m. he attended the opera, where he occupied M. Loubet's box.

RECEPTION AT THE ELYSEE.

President Loubet Extends a Cordial Reception to Mr. Francis.

Paris, March 3.—President Loubet received David R. Francis, president of the St. Louis exposition, at the Elysee palace at five o'clock Monday afternoon. After a cordial exchange of amenities and a discussion on the subject of the St. Louis exposition, which lasted 15 minutes, the president invited Mr. Francis to occupy the presidential box at the grand opera and to return later and take part in the grand ball at the Elysee palace given to the officers of the army and navy. Both invitations were accepted.

Mr. Legrave also accompanied Mr. Francis on his visit to President Loubet. The presentation took place in the grand salon of the palace, and after this formality the president led the way to his private reception room, where he and Mr. Francis sat down and talked over the affairs relating to the St. Louis fair. Mr. Francis expressed his thanks for the interest that France is manifesting in the exposition.

Francis Cordially Received.

President Loubet, who received the president of the St. Louis exposition, warmly spoke of the cordial relations existing between the two countries and referred to the peculiar interest that France has in the Louisiana Purchase exposition. He assured Mr. Francis that the French republic would be fittingly represented at the exposition. Although a formal invitation to President Loubet to attend the exposition must come through the state department, Mr. Francis anticipated the possibility of such an invitation by urging that the foremost officials in France should attend it. President Loubet replied that he hoped the French officials and the public generally would take this opportunity of seeing the remarkable development of the United States.

Guest of Honor at Banquet.

Following his call on the Elysee palace, Mr. Francis was the guest of honor at a banquet given at the ministry of commerce by Minister Trouillot. The affair was of an unusual elegance. The toasts, numbered 24 and included the most prominent personages in official and commercial life, including the minister of the colonies, the minister of agriculture and the minister of posts and telegraphs. Mr. Francis' remarks on the magnitude of the exposition and of the opportunities that it afforded brought out strong assurances of support and co-operation from the various ministers.

Other Calls Made.

During the afternoon Mr. Francis made calls on the mayor and other city authorities and the minister of the Seine at the Hotel de Ville, on prominent deputies at the chamber, and the minister of commerce, M. Trouillot, with whom he discussed French participation in the exhibition. He was also received by Ambassador Foster at the hotel of residence and talked with him on the earnest efforts which were being made to make the St. Louis exposition a thorough success.

FORMER CONGRESSMAN DEAD.

John Baker Succumbs at His Home to an Attack of Paralysis.

Bellefonte, Ill., March 2.—Former Congressman John Baker died at his home here Sunday. He had been in ill-health for some time, but death was directly due to an attack of paralysis.

Mr. Baker was 80 years old, and had lived in Bellefonte the greater part of his life, but was born in Kentucky. He was in the Thirty-ninth and Fortieth Fifth congresses as a republican. When elected to the Fifty-third congress he was defeated by William R. Massie. In 1885 he was defeated by W. A. Foreman. He was a member of the Fifty-fifth congress as a democrat was summoned from Clifton Terrace, but he lost his last. He died a poor man, his only property being the family homestead.

LANDSLIDE NEAR ST. LOUIS.

A Train Narrowly Escapes Being Plunged into the Mississippi at Clifton Terrace.

St. Louis, March 2.—Passenger train No. 1, on the Chicago, Peoria & St. Louis railroad, due to arrive here at 7:30 o'clock Sunday night, was struck by a landslide near Clifton Terrace, shortly before seven o'clock.

Engineer Brady saw the avalanche before it struck the train, but, realizing the utter hopelessness of escaping it, he shut off the steam and awaited the result. As soon as it was found that no one had been seriously injured the work of clearing away the mass of rock and dirt was commenced. A force of men was summoned from Clifton Terrace, but it was five hours before they could dig away the debris.

A CAPITOL OF PURE GOLD.

A Minister of Colorado's Capital, Valued at \$100,000,000, to Be a Feature of the World's Fair.

Colorado Springs, Col., March 1.—Van E. House, treasurer of the board of Colorado commissioners of the St. Louis exposition, is authority for the statement that the board will have no difficulty in securing the greater part of the \$100,000,000 of gold bullion to be used in reproducing the state capitol in miniature at the St. Louis exposition.
